

"Let me know if you need help"...we hear it all the time. With the many benefits we produce with Mama's Family, we're approached frequently by individuals asking what they can do to help. We respond many times by saying 'just be there', and it may seem like a cop out, but, we assure you it's not. It's the most important thing you can do. For years you couldn't go anywhere without seeing Mama buying another raffle ticket, bid on another 'porn' video she'd never use, lend a hand to fold programs, flog a boy, cheer a performer, or just look fabulous in the crowd and add to the energy. This is 'being there'. It's not about a hundred dollars; nor a single dollar. It's not about the number of hours; it's about the quality of time. It's not about you; it's about your heart. For Mama it's about family. The Breast Cancer Emergency Fund needs you here. They continue to help so many people with this terrible disease. Inevitably we will know someone who will be affected by breast cancer and that person will make the journey as a survivor so they can continue to 'be here' too. So 'being here' tonight means so much. It's an act of compassion and caring, even if you don't realize. Have fun, and that will spread to others. Enjoy tonight knowing you've done so much more than 'bid on an item' or 'have another cocktail!'... you're here. And we're so happy you are.

About the BCEF

In April 2001, after several years of research and input from the community, AIDS Emergency Fund (AEF) launched a new initiative: Breast Cancer Emergency Fund (BCEF). Modeled on the successful work of AEF in providing direct financial assistance to low-income San Franciscans fighting HIV and AIDS, the new breast cancer initiative BCEF is able to provide emergency financial assistance to hundreds of low-income women and men disabled by breast cancer or its often debilitating treatments.
